SCHOOL Happy
Thanksgiving

SUPERINTENDENT NEWS –Mr. Carlstrom:

A school year observes different “seasons”. We have moved from summer to fall and winter will be here soon. The fall sports season will turn in to winter sports season. The first quarter of school is now behind us and we will soon be ready for the next testing season.

Our school does four major assessment (testing) seasons. We do a fall MAP (Measure of Academic Progress) assessment when school first starts. We will do a winter MAP assessment of students in December and the testing season ends with a spring MAP assessment. The results of these tests are almost immediately known and can be shared with staff, parents and students. The goal is to use the results to find what we need to concentrate on teaching and learning. We use the spring MAP assessment to check for meeting our academic improvement goal of 80% of students being at grade level. I left one season out. We also have the NeSA testing season. NeSA stands for Nebraska State Assessments and they are used to measure how well our students do in meeting the state standards. We are preparing recognition for last year’s Juniors who had the best school average of having 58% of the students meet the state standards in the NeSA science test. We hope to inspire other classes to try and beat that. Nothing wrong with some friendly competition.

Taking tests is probably something most people do not get excited about. But, we need our students to do the best they can, every time they are challenged. We are constantly looking for ways to motivate students to do the best they can on assessments. We all need to express how important they are.

Thanksgiving time will soon be here. Before we get to that recognition, I would like to give a big THANKS to our veterans. My son proudly served in the Air Force for six years and I never really thought about the sacrifice veterans make for us until it directly involved me. He missed every holiday with us. At times, he could not even tell us where in the world he was. Veterans Day is a designated day to give our thanks to veterans for serving our country. They gave up much of their own independence while they took orders and served, we owe them much gratitude for their service, not just on a designated day, but every day.

Introducing a couple more New Staff....

How long have you been teaching? I have been teaching in some capacity since the age of 15 when I started teaching swimming lessons. However, I have only been a "certified" special education teacher for the past year. Prior to that I was in Yankton with their learning program working with students with emotional/behavioral disabilities. Prior to Yankton School District I was out at the Human Service Center as a licensed addiction counselor in their adolescent program.

Mrs. Svacina
Special Education

Favorite Sports Team? Green Bay Packers GO PACK GO!

Family? I am married to my husband Darin. We have two dogs (Kassidy and Ellie), 4 cattle (Peach e o, Marga, Peppermint, Peppy la Peu), and a donkey named Rita.

Do you have Any Pets? Ellie is a schnoodle and Kassidy is a Cocker Spaniel

What three things should every teacher own?

1. Water Bottle
2. Pen
3. Post It Notes

How did you know you wanted to be a teacher? Mr. Gettner my 5th grade teacher. He was a Special education teacher who began his career in 5th grade. I remember I had a classmate who had just came over from Mexico and spoke very little English. Mr. Gettner was trying to communicate with the student about what school was going to be like. He knew the student didn't know very much English so Mr. Gettner tried signing to the student to talk even though he knew the student may not know those signs either. Mr. Gettner taught me about patience and the rewards of being a teacher.

How long have you been teaching? It all began one dark and stormy night in Omaha, Nebraska, during the winter of 1956. oh...how long have I been teaching? **Began teaching in Greely Colorado in 1982, and have taught or been a Counselor every year since that, except of a decade at law school and the exclusive practice of law. I mixed both professions for about 5 years as well.**

Favorite Sports Team? The Kansas City Royals are my favorite sports team. In 1985 I was in the park when George Brett and Bo Jackson went back to back homers.

Mr. Higgins
Guidance

Family? My 2 brothers and sister all live and work in Boulder, one with software design at Oracle, one as VP of sales for a Medical software Data records archive/sharing software corp. and one as a CPA

Do you have Any Pets? I have always had dogs, and the best dog on the planet was Cody J. Higgins, a Golden retriever that crawled out of the woods on a farmstead I owned in North Dakota. Currently, Palomo is an 11 year old Great Pyrenees that I rescued as a pup from the desert, and Babe Winkelman Jr. is the pound puppy that I got to keep Palomo company after Wrinkles and Cody went to heaven.

What three things should every teacher own?

1. Mountain Bike
2. Harley
3. Golf Clubs

Who was your favorite teacher and why? Dr. Donald Lisio was my favorite teacher because of his enthusiasm and caring nature...

How did you know you wanted to be a teacher? I knew I would be a teacher when I simply loved school from the first day of kindergarten until now.

iPads.

Guidance Counselor News: Mr. Higgins

Classroom guidance will continue, with some Red Ribbon Activities continuing throughout this week;

I have spoken with a few elementary ed teachers, and would like to get some input on holding an assembly prior to Thanksgiving: AR certificates, academic achievement, effort or other recognition could go on, as well as some Reader's Theater or skits celebrating what we have to be thankful for.

Grades 4-6 could do the same thing at a different time, if the teachers are so inclined, and I think 4th - 6th grade doing a skit for the little ones would be nice....

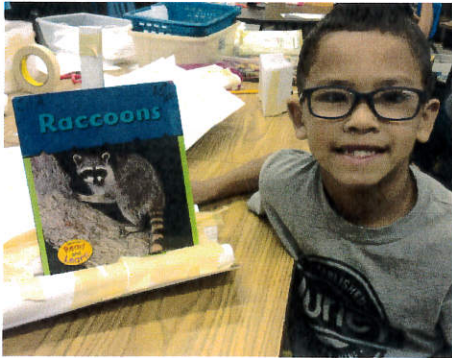

Thanks to all who helped make the Halloween Social for the

5th-8th grades a hit. We had pizza, soda and chips, played musical chairs and wrap the mummy and just generally had fun. Students won \$2.50 gift certificates to Lakeview for their dancing skills. Thanks to Mr. Ruiz, Mr. Hoffman, Ms. Svacina, Ms. Kay, Ms. Crosley, Ms. Knight and all the others who helped, including Ms. Moby who took some great pictures!. Student Council provided the volunteer chaperones, Rhylee Johnson, Deonna Rave and Oriana Archambeau, who did an excellent job as hostesses. Holiday season is upon us...let us all be kind to one another and the very best of wishes to each of you.

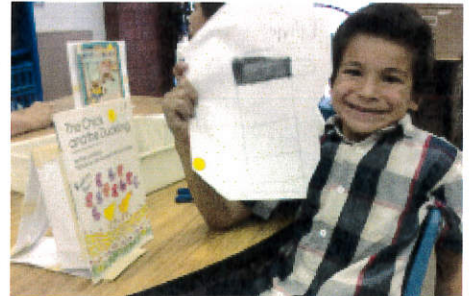

Ms. Sorensen....First Grade News!! Engineers in the making....

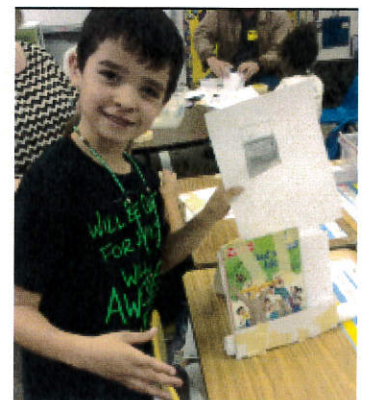

First Grade students have been working hard and I am proud of their efforts! The story that I want to share involves our new Science program, "Science Fusion" by Houghton Mifflin Harcourt.

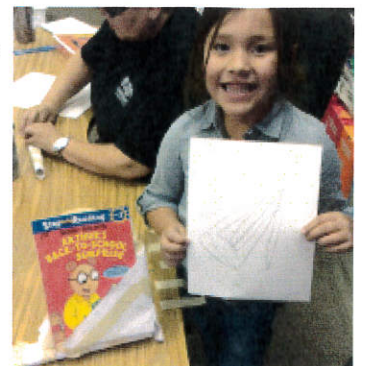

The concepts that this program begins with are very difficult Science concepts such as the Inquiry Skills, which includes predicting, hypothesizing, classifying, inferring, comparing, observing, sequencing, and measuring. These are difficult skills to teach especially to young students, but they are vital to our state standards so we have been taking it very slowly.

This past week our assignment was to work like Engineers, using the Design Process. Our students were to build a book stand out of paper and tape that would hold a book for 15 seconds. They were to state the problem, draw a model, build it and then test it out. They were then to see if it worked and make revisions.

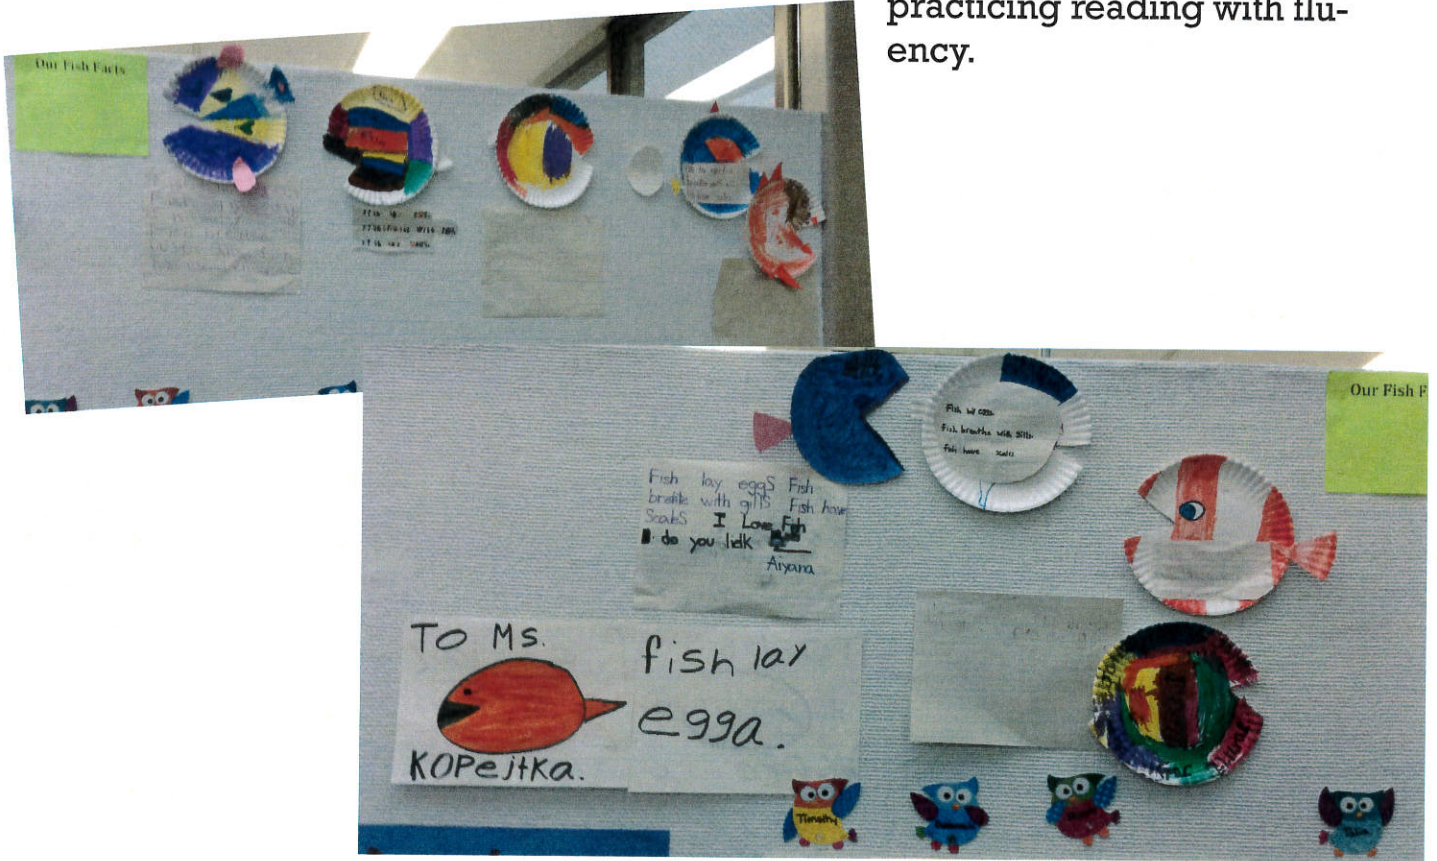

I was very nervous about the success of the project---but the students were very creative engineers and did an awesome job at building and revising their paper book stands! I have included pictures of our project, as I am very proud of their hard work! Keep it up First Grade Engineers!!!!

2nd Grade: Ms. Kopejtka

Hello! My name is Ms. Kopejtka and I am the second grade teacher.

We are very busy in second grade! In Science, we have learned about fish, reptiles, and amphibians. We are busy using addition strategies in Math. We are practicing reading with fluency.

6th Grade: Mrs. Crosley

The Sixth grade has participated in two UNL Extensions activities, Wind Power and GPS. The students enjoyed both activities very much.

November 6, 2015 our class will be traveling to Creighton for a presentation. The students are excited and ask everyday when we are leaving.

Halloween parties were fun and we are moving onto Thanksgiving. Have a super great holiday with family and friends and as always, stay safe and happy.

Third Grade— Mrs. Hrbek

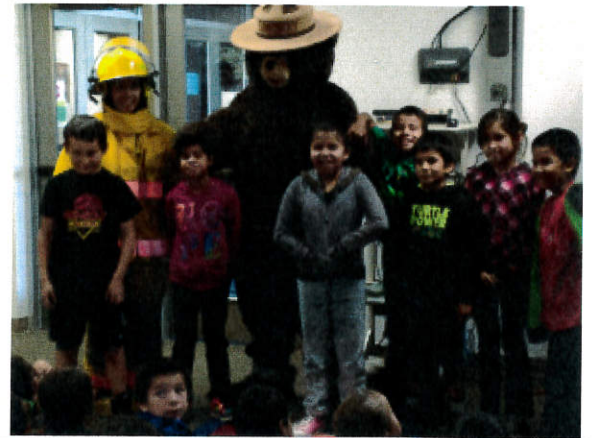

The third grade class is eagerly awaiting November! We will be starting multiplication! We are so excited! The students have been working hard testing out of addition and subtraction. I am very proud of them!

Our students got to experience a play at the Johnny Carson Theater in Norfolk called "Room On a Broom." It was performed by actors and actresses from England. It was a wonderful experience for everyone!

Students have been striving for a pizza certificate from Pizza Hut. This month they needed to read and pass 10 Accelerated Reader books. We are so close to our goal.

We would like to thank our local fire department for the presentation for Fire Safety Month. We appreciate all the hours you put in to keep us safe.

Thank you to all the parents, grandparents, aunts and uncles that stopped in for conferences. It was great to see you! We would love to have visitors anytime.

Kindergarten—Ms. Ward

The Kindergarten class has been having a great year. We have been learning our letter sounds as we begin to read and our numbers as we begin adding. Our class has had the chance to learn a lot already this year. One of our recent projects was learning about leaves. We went on leaf walks, sorted leaves and read various stories.

One of our favorite stories was Leaf Man by Lois Ehlert. We watched as the leaves formed different objects and animals throughout the story. In our final leaf walk we used our leaves to create our own leaf man and talked about the different places he could go. The Kindergarteners are working hard and are excited for all the things we can learn this year!

October Happenings

Ms. Kay taught the students how to bake their own Kale chips. The students even took some extra kale home along with the recipe to bake their own chips at home.

The After School Program students have been staying busy with fall crafts, music, swimming activities with the Wellness Center, Native crafts, SPARK activities and cooking with Ms. Kay. They also went on a trip to the Apple Orchard in Yankton, SD. The students also enjoyed some apple crisp and apple cider made from the apples they picked at the orchard.

RED RIBBON WEEK

To celebrate Red Ribbon Week the 4th & 5th grade students tied red ribbons on car antennas, trees and poles on Oct. 27th. The school teamed up with the HEART Program to bring in some speakers to explain to the students how important it is to stay drug free.

4th Grade News

The 4th grade class has been super busy these past 9 weeks of school! We have been working diligently on writing, finishing our Reading books, Accelerated Reader, memorizing our multiplication facts and recently started a new program called "Skills Navigator."

Skills Navigator is a tool that will be used by the teachers to help guide instruction and the students can also monitor their own progress toward mastery.

On October 9th the 4th graders took second place in the Homecoming Parade. We chose Sesame Street for the "Throwback" theme.

On October 12th, the elementary teachers attended a SPARK training and we learned some fun new "brain break" activities to do with the students. The kiddos have been having a lot of fun trying out the different activities in between lessons.

On October 16th we traveled to Norfolk, NE along with the 3rd grade class to watch the play "Room on the Broom." The students really enjoyed their experience. Parent Teacher Conferences were held October 27th and I couldn't be more proud of the attendance of my fourth grade parents! I loved catching up with all of the parents and delivering them great news on how far their students have come so far 😊

Thank you so much for letting me work with your children.

Our classroom Halloween Party will be held on October 30th so feel free to come in and have a SPOOKTACULAR time with your child/children.

~Mrs. LaPlante

4th Grade News

My Reading students playing one of the SPARK games "Paper, Rock, Scissors, Fan club."

The 4th grade were muppets during Homecoming. "Sunny day, sweeping the clouds away...On our way to get a VICTORY...Can you tell us how to get, how to get to Sesame Street!"

The fourth grade students at the play "Room on the Broom" at the Norfolk Children's Theatre.

Library & 21stCCLC News —Mrs. Nielsen

After School Program

The after school program is held each day after school. Times of the program are 3:45 – 5:00 Monday – Thursday and 3:45 – 4:30 on Fridays. This is an opportunity for your child to participate in activities that enhance their education.

On Friday, October 9, 19 students and staff members went on an incentive trip. The students who went have been regular attenders to the program. The group toured Garrity's Farm in Yankton, S.D., they then ate supper at Pizza Ranch. Additional incentive trips will be planned in the future for those students who are regular attenders to the program.

Accelerated Read (AR)

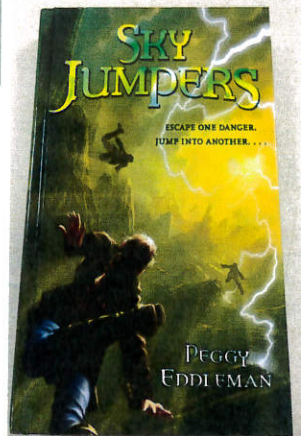

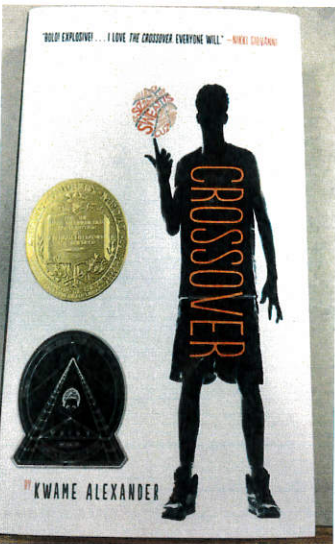

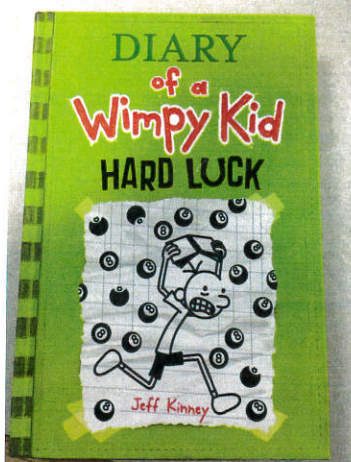

The 4th, 5th and 6th grade students are in the middle of an Accelerated Reader challenge. The students need to read books at their AR level and get at least an 80% on the test. The winning class will be awarded a prize.

New Books in the Library

Here are some of the new books

in your library.

More to be coming soon!!

Speech and Language—Mrs. Kanaly

SLP Vocabulary 101

Receptive Language:

Quite simply, this is the information that we "receive" from others. We can determine how much a child is "receiving" by how well they can follow directions, answer questions, etc.

Expressive Language:

Basically, how you express yourself to others. We tend to think of "language" as the "words" we use, but this can also include non-verbal means of communication.

Non-Verbal Communication: This can include gestures (like pointing and waving), body language (like turning away from someone to end a conversation), and facial expressions. Just as vital as "verbal communication," this is one aspect of language that is difficult for many children to grasp (particularly students on the Autism Spectrum, students with ADHD, and students with Non-Verbal Learning Disability).

Pragmatics:

The social aspects of language. This deals with those "hidden rules" that just about everyone seems to know – you respond when someone greets you, you add to conversations with a comment on the same (or similar) topic, you don't insult the person with whom you are speaking. This is another aspect of language that is particularly difficult for students on the Autism Spectrum and other disabilities.

Syntax:

this has to do with the rules that govern how we organize words into sentences.

Semantics:

Refers to the meaning of a message.

Morphemes:

Words (and parts of words) that carry meaning. For example, "yawn" indicates something you do when you're tired (1 morpheme), "yawned" indicates [1] what you do, and [2] when you did it (2 morphemes).

Jargon:

Consonant-vowel sequencer that mimic the intonation patterns of adult speech, but do not consist of true words. [I often hear parents refer to this as "blberish,"

Fluency:

The rhythm and flow of speech. A disruption in that flow (dysfluency) is commonly known as stuttering.

Articulation:

How you say the sounds within the words. A child with an articulation delay/disorder has difficulty producing one or some sounds.

Phonology:

An internal classification system for sounds. When a child has a phonological problem, they have difficulty with entire classes of sounds (e.g., sounds made from the back of the mouth or sounds made with prolonged air-flow). Their errors fall into "patterns" called "phonological processes." A child with a phonological disorder is generally more difficult to understand than a child with an articulation disorder.

College Week Success!

Santee Community School celebrated College Week last week. There were a variety of college- and career-oriented activities for all grades K-12. The seniors participated in Apply to College Day on Tuesday October 20, so it was a good time for the rest of the school to show their support for career and college readiness also. Ten seniors participated in Apply to College Day and applied to as many as 38 different colleges! Some seniors have already received acceptance letters! They are super excited!

Other activities included a door-decorating contest (won by the Junior class), college essay (best writing goes to 4th grade), mascot posters, career research, Big Red Day, and College Gear Day. The whole school participated in one way or another. Perhaps the best part of the week was on Saturday when three seniors went to Yankton to take the ACT test. The elementary students made good luck cards for them to open on their way :)

Student success after high school has been directly related to their enjoyment of school, their family's value of education, and their relationships with their teachers. Our younger students really care about and idolize our older students and family members. Conversations at home about college and life after high school are a necessary part of their success. Start these conversations when children are young! Research has also indicated that students who are at risk for school failure due to a variety of reasons usually make the determination to drop out of high school by the time they reach 4th Grade!

Take some time to talk to your students about their futures no matter their age!

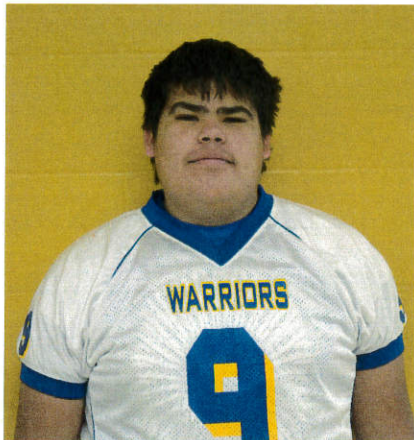

Warriors 6 Man Football - Coach Hajek

2015 SANTEE HIGH SCHOOL FOOTBALL SUMMARY

Even though the Warriors finished the year with a 0-8 record, the seven young men represented their school proudly by their competitiveness and sportsmanship throughout the 2015 football season. We would like to thank the community, especially the parents/guardians of the athletes, for their support throughout the season.

LETTER WINNERS:

JAYLON LAPLANTE – Senior
***HIS FOURTH YEAR OF LETTERING IN FOOTBALL**

BRANDON WHIPPLE – JR *HIS SECOND YEAR OF LETTERING IN FOOTBALL

Industrial Technology—Mr. Evans 7-12 News

Hello from Bob Evans your ITE teacher.

Things are very busy here in the ITE department!! I cannot believe that one-fourth of school year has slipped away. We are one-half way to the end semester.

The **Construction** class is hard at work applying knowledge and skill to complete required wood project. They will have an opportunity to make projects that are their choice next. Great progress and the project look very nice.

The **Introduction to a Built Environment** Class is just about finished with their name plate project. The class is making name plates for the School Board Members and Administration. They are doing a great job and learning many valuable skills in the process.

Engineering class has spent a lot of "Problem Solving." We have really worked hard trying to understand how to share ideas and concept with sketches and plans. We are in the process of doing a complete project that start with "Brain Storming" and end up with a finished project that the student can hold in their hands and evaluate. Engineering is always difficult concept and get the student to "Think Critical" is a major focus of my efforts. Being able to solve problems is so important and the concept are sometimes very difficult but we are working through it.

The three super seniors that are in **Business Logistics** class are doing an outstanding job. We work and production and business skill and the combination seem to very successful.

Skills/USA has had an explosion in population and interest. We have about twenty students that are currently working with the program. We had a student attend a Fall Leadership conference in Norfolk. The student had a great experience and did many positive learning activities. We went to Columbus for three days to attend the **Mid-American Leadership conference**. Students from all over the United States will be in Columbus. This is a huge event from hundreds of students all of which are working on their leadership skills. This three day event will test our students and really help them understand the role of leader. We are also making for the upcoming registration for the Skills/USA state contest that will be in Omaha in the spring.

Congratulations girls for representing Santee Community Schools...job well done.

Yasmeen, Caitlin and Stefani with their Skills USA Statesman awards and achievement certificates .Yasmeen with her second place (out of 9 states) ribbon for her contest on Fundraising.

Music Notes...Ms. Knight

Music Notes:

The music room has been a flurry of autumn activity this semester! Our high school band is learning concert songs and pep tunes (we can play Frere Jacques in a 4-part round!!). Our lessons class is working diligently and recording our solos weekly. Our high school choir is preparing four difficult songs for the Niobrara Valley Conference Choral Clinic early next month. Our middle schoolers are doing double duty as choirs and bands. Our elementary students are working on a variety of music, including call-and-response with solos, patriotic music, folk music with dances, and top 40 songs selected by vote by upper grade choirs. We are getting very excited for our upcoming concert, **on Monday, December 21, at 5:00 P.M. This will be our December Community Night; we will eat dinner after the show and play a couple games of bingo at the end of the evening. All K-12 music students are required to perform on this evening, and we would love to see a HUGE turnout for our holiday concert!**

Upcoming Dates to Remember:

Monday, November 9, 2015: NVC Choral Clinic. High school choir students will be leaving for Orchard at 10:30 A.M., will rehearse with the clinician, and will give a performance with the other conference choirs at **7:00 P.M. in the Orchard Middle School. Please come support us if you are able.**

Monday, December 21, 2015: K-12 Winter Concert and Community Night at 5:00 P.M. Students will be expected in the Multipurpose Room by 4:45 P.M. Please come celebrate the holidays with us!!

Wopida tanka,
Amber Knight

SANTEE COMMUNITY SCHOOL

WHAT

We are seeking community volunteers to serve on the Indian Policy and Procedures Leadership Team

WHEN

The team will meet 4 times per year. If selected, participation is mandatory.

All interested volunteers should contact Steve Moose, Santee Community School Board of Education President by Friday November 5, 2015. The Board of Education will make the final selection.

LEADERSHIP TEAM

WHO?

Parents of Indian Students, other Tribal representatives, school personnel, Board of Education members, and students

FINAL SELECTION

The Board of Education will appoint qualified persons interested in serving on the Leadership Team. The school board will make the final selections, taking into consideration the tribes recommendations.

MEETINGS

Times and dates are to coincide with guidelines established by Leadership Team to insure proper notification and dissemination of all pertinent information in regard to Impact Aid.

THANK YOU

from

On October 12th, 2015 The Ohiya Casino & Resort hosted it's annual Native Day Celebration. This year's theme, FOR OUR CHILDREN, OUR FUTURE held a fun filled day of learning, door prizes and an essay contest. Redwing Thomas held language classes and activities for all ages. Students from Niobrara and Santee Schools won RCA Voyager 7" tablets in door prize drawings. Winners of the tablets were Starlyn Makes Room, Rhianna Bickerstaff, Emiliano Hayes, Wambdi Starlin, Ta'te Frazier, Imani Strickland, Julius Brandt, L'vin Saul, Bailey Saul, Miley Pike, Aleigha Wabasha, Paris Runnels, Siemona Wabasha, Octavio Phillips, Destinee Tuttle, DaWayna Wabasha, Dimitryus Wabasha, Ashleigh Wabasha, Mato Thomas, Samuel Saul, Isabel Rife, Jayna LaPlante, Winona Wabasha, Darlene Kitto, Andres Grant-Wabasha, Taylor Redwing. Students were asked to write an essay on "Who is the most influential Native in your life?". Contestants were acknowledged and asked to read their essays. 1st place went to Winona Wabasha, 2nd place Isabel Rife, and 3rd place to Kaylee White. Jaylon LaPlante, Brandon Whipple, Victoria Hallum, and Taylor Redwing received participation awards. All students did an amazing job describing who has influenced their lives. Thank you to all that made this day a success.

PIDAMAYA!

7-12th Graders

9th Hour

Monday-Friday 3:45 -5:00

Zero Hour

**Monday-Friday 7:30 am-
